

9813.4 Coastal Operational Divisions – Ventura County

Coastal Operational Divisions are presented in the ACP as front-loaded information to assist in rapid response planning to provide for quickly organized operational objectives and assignments along affected shorelines. The operational divisions have been developed in conjunction with the US Coast Guard, California Fish and Game OSPR, and various Oil Spill Response Organizations. Experience has demonstrated that in the earliest stages of spill response, having organizational issues such as this prepared in advance is very useful to the response team.

The coastal operational divisions are organized around County boundaries and logical geo-political features such as coastal physical characteristics and land ownership/management issues combined with an attempt to provide for manageable sized coastline segments generally about ten miles in length, although some variation may occur. Divisions can be easily subdivided (as necessary) by the Operations Section management to provide for appropriate work assignment effort. Coastal operational divisions are labeled from north to south in each County using a single alpha character (A to Z). In large bays (i.e. San Diego), the labeling will progress in a clockwise direction to accommodate changing coastline angles and San Francisco Bay may utilize additional identifiers such as County characters. It is recommended that offshore operational divisions be identified with double alpha characters (AA to ZZ) to distinguish them.

Complementary response tools available in this ACP are located in section 9813.1, 9813.3, and 9813.5. These include Environmentally Sensitive Site files, Economically Sensitive Site listings, and Shoreline Access files.

9813.5 Shoreline Access – Ventura County

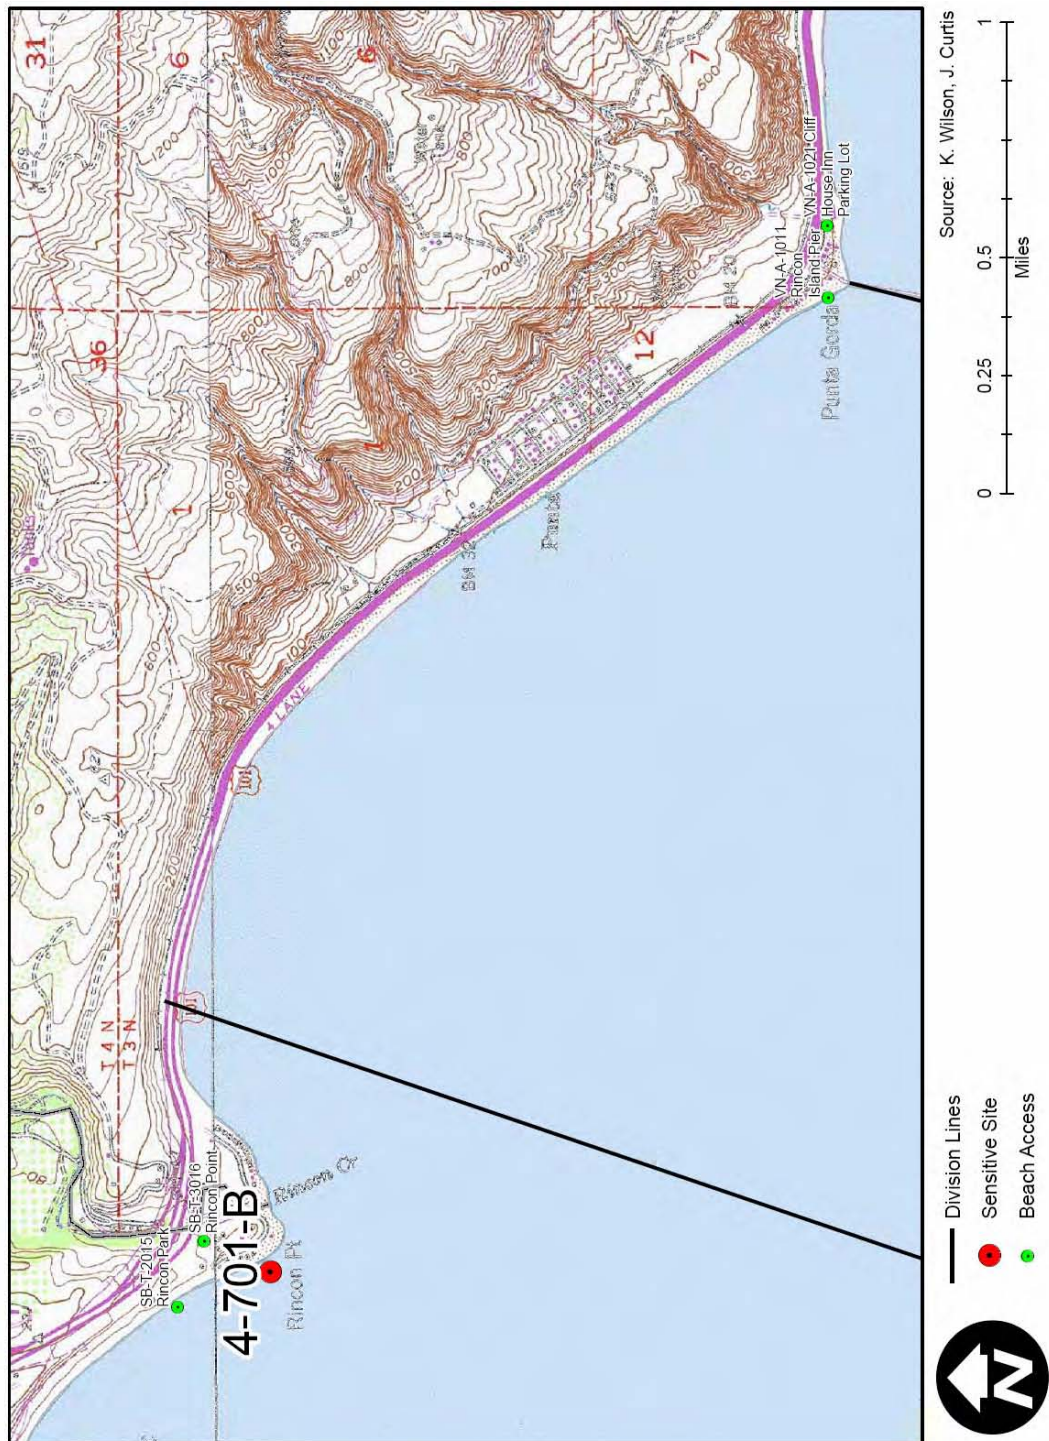

Detailed shoreline access information is provided in this section to aid Planning and Operations Section managers in rapid placement of field response personnel and equipment on coastal beaches during the emergency phase of spill response. Coastal access points were examined, mapped and photographed at virtually every location along the respective ACP coastline where personnel and equipment can gain access to specific coastal segments. Used in conjunction with Environmentally Sensitive Sites and Operational Divisions, shoreline access information enables responders to be directed to the most convenient or appropriate coastal access point for their response effort. Knowing which access point to use and the nature of any access limitation will reduce time delays in finding these locations and eliminate uncertainties about the type of equipment that can gain access. Information provided in this section includes:

- a) descriptive information about the respective operational division with boundaries defined by landmark features and latitude/longitude (GPS), and a general description of recognized cultural resource issues, sensitive sites within divisions; and
- b) access point specific Thomas Bros Maps® page and coordinates, written directions from major streets and roads, a general site description, photographs of entry points and associated shoreline, land ownership matters, and occurrence of Sensitive Sites. Descriptions may also include the length of accessed coastal segment and limitations of access where physical constraints may be a factor.

The access point identification label is a seven character alpha-numeric code describing (in order) the County (2-alpha characters) and Operational Division (1-alpha character) where the access point is located, along with a four digit number that relates to its relative physical location in the operational division. Thus, in each operational division the unit digit component will increase from north to south as access points are encountered that provide access to a discrete (partial) coastal segment of the operational division (i.e. 1110, 1115, 1120, etc.). The access point alpha-numeric code will be followed by a name the site is commonly known by (i.e. Nicholas Canyon County Beach).

Complementary response tools available in this ACP are located in section 9813.1, 9813.3, and 9813.4. These include Environmentally Sensitive Site files, Economically Sensitive Site listings, and Operational Divisions files.

Ventura County - Division A

Division Boundaries**County** Ventura**North** Boulder rip-rap south of Rincon Pt **Latitude: N** 34.37290 **Longitude: W** 119.47753**South:** Rincon Pier at Punta Gorda **Latitude: N** 34.35540 **Longitude: W** 119.44276

Division Description:

This ~2.1 mile long stretch of shoreline is entirely backed by protective boulder rip-rap. The northern division boundary effectively extends from the intersection of NE Rincon Pt. with Hwy 101 (In the 2005 ACP, the north Division boundary begins ~ 0.25 mi. to the SE - this will be corrected in the next ACP Update). The northwest 0.5 to 0.75 mi. of this division is boulder rip-rap with no beach except at the lowest low tides. Along all but the southern 0.2 mi. (Mussel Shoals), response equipment requires parking along Hwy 101. Partial or full highway closure may be required for responder safety. The shoreline is a wide to moderately wide sandy beach capable of supporting vehicular traffic for the southernmost 1.4 miles of this Division for the southern 1.4 miles. Access to the shoreline for vehicles in this segment is difficult because there are no access ramps to the beach. Temporary ramps could, however, be constructed should the need arise.

Cultural, Historical, and Archeological Concerns:

Cultural, Historical, and Archeological sites may exist, however, the exact locations of these sites must be ascertained by contacting the Native American Heritage Commission at (916) 653-4082.

Ventura County - Division B

Division Boundaries**County** Ventura**North** Rincon Pier at Punta Gorda**Latitude: N** 34.35540 **Longitude: W** 119.44276**South:** South end of Solimar Beach @ Dulah**Latitude: N** 34.31790 **Longitude: W** 119.38973

Division Description:

This ~6.4 mile long division begins on the south side of Rincon Pier at Mussel Shoals and extends to the south end of the community of Solimar at Dulah. This Division is included in ~ 8.4 miles of shoreline which extends from ~ 1 mile north of the Sea Cliff exit, off US 101, to the Emma Woods State Beach which must be accessed from Pacific Coast Highway. Virtually the entire shoreline of this division is backed by boulder rip-rap. There are three gated communities w/in this Division at Seacliff, Faria, and Solimar Beach. There are ungated communities at Mussel Shoals and Faria. All communities obstruct shoreline access. There are two off highway parks operated by Ventura Co - Hobson and Faria. Ventura Co Parks also allows roadside camping for RVs along a 1.6 mile stretch of PCH from Hobson to Faria Co Park.

Cultural, Historical, and Archeological Concerns:

Cultural, Historical, and Archeological sites may exist, however, the exact locations of these sites must be ascertained by contacting the Native American Heritage Commission at (916) 653-4082.

Ventura County - Division D

Source: K. Wilson, J. Curtis

Division Boundaries**County** Ventura**North** Ventura River East Bank @ Ventura Fairgrounds**Latitude: N** 34.27440 **Longitude: W** 119.30774**South** South Jetty of Ventura Harbor**Latitude: N** 34.24710 **Longitude: W** 119.27077**Division Description:**

This ~ 6.6 mile long division begins at the south jetty of Ventura Harbor and extends SSE to and including the south jetty of Channel Islands Harbor. This Division is under several different ownerships and includes Spinnaker Dr., along the Ventura Harbor; the mouth and estuary of the Santa Clara River; McGrath State Beach and Lake; and the Reliant Energy Power Plant. This division also includes 2.9 miles of beachfront residences from 5th St in Oxnard to the entrance to Channel Islands Harbor. A fine-grained sand beach covers 100% of this Division, all of which is accessible for vehicular traffic during the dry season of the year. When Santa Clara River (SCR) flows are high and the natural sand berm is open, the northern 0.5 to 0.7 mile segment and the southern portions of the Division will not be accessible for vehicular through traffic and must be accessed through onshore access points. The SCR estuary, upper beach and coastal dunes provide habitat for T/E species and should not be disturbed w/o express permission from authorized trustee biologist.

Cultural, Historical, and Archeological Concerns:

Cultural, Historical, and Archeological sites may exist, however, the exact locations of these sites must be ascertained by contacting the Native American Heritage Commission at (916) 653-4082.

Ventura County - Division F

Division Boundaries**County** Ventura**North** South Jetty of Channel Islands Harbor **Latitude: N** 34.15650 **Longitude: W** 119.22795**South** South entrance of Port of Hueneme
West of Jetty **Latitude: N** 34.14550 **Longitude: W** 119.21237

Division Description:

This ~ 1.5 mile long division begins at the south jetty of Channel Islands Harbor and extends SE to the south side of the entrance to Port of Hueneme just west of the Jetty. This includes 0.85 miles of beachfront residences along the Silver Strand area of Port Hueneme. A fine-grained sand beach covers 100% of this Division, all of which is accessible for vehicular traffic. The remainder of the Division is under the jurisdiction of the Port of Hueneme.

Cultural, Historical, and Archeological Concerns:

Cultural, Historical, and Archeological sites may exist, however, the exact locations of these sites must be ascertained by contacting the Native American Heritage Commission at (916) 653-4082.

Sensitive Sites Within Division: [4-780](#) [Port of Hueneme \(POH\)](#)

Individual Access Points i VT Division F**Access Point: VN-F-1105 Multiple Ocean Drive - Silver Strand Beach Access***Thomas Guide Page:* 552 *Grid:* B5 *City:* Oxnard*GPS Coordinates:* N 34.15739 W 119.22435**Directions:**

Take the Victoria Ave exit off of Hwy 101 and head south for 6.5 miles. Take a left onto Ocean Drive.

Site Description:

Numerous beach access points all along Ocean Drive. The best access is off of Ocean Drive on Nicholas Ave at the tip of the SE side of harbor. Another good access is at the SE side of Ocean Drive. Access varies from foot only to full access (foot, ATV, and heavy equipment).

Map of Port Hueneme, CA, showing the coastline, roads, and various landmarks. Two red dots mark specific locations: one near the top left labeled '4-780-A' and another near the center labeled '4-783-A'. The map includes labels for 'Port Hueneme', 'Santa Clara High Sch', 'Ventura', 'Perkins Road Access', 'VN-G-1024', 'VN-G-1014', 'VN-G-1011', 'Arnold Road Access', and 'VN-H-2019 Parkin Area near Radio Tower @ Arnold Rd'. The map also shows 'Duckponds' and 'Santa Clara High Sch'.

A vertical number line labeled "Miles" with tick marks at 0, 0.3, 0.6, and 1.2.

Division Boundaries**County** Ventura**North** South Entrance of Port Hueneme West of Jetty **Latitude: N** 34.14550 **Longitude: W** 119.21237**South:** Naval Stn, Fenceline @ Arnold Rd **Latitude: N** 34.11940 **Longitude: W** 119.15984

Division Description:

This ~ 3.5 mile long division begins at the south side of the entrance to Port of Hueneme just west of the SE Jetty and extends SE along Ormand Beach to the fence line at Arnold Rd. which marks the NW boundary of the Naval Station Ventura County. This Division includes Port Hueneme Beach Park and fishing pier, the Ormand Beach Lagoon and wetlands, Oxnard Industrial Canal, and the Reliant Energy Ormand Beach Generating Station. The beach is narrow and subject to wave-wash in the westernmost 0.6 mile segment of this division. The remaining 2.9 miles of coastline is a broad fine-grained sand beach all of which is accessible for vehicular traffic. Ormand Beach and Lagoon provide habitat for T/E species and should not be disturbed w/o express permission from authorized trustee biologist.

Cultural, Historical, and Archeological Concerns:

Cultural, Historical, and Archeological sites may exist, however, the exact locations of these sites must be ascertained by contacting the Native American Heritage Commission at (916) 653-4082.

Ventura County - Division H

Division Boundaries**County** Ventura**North** Naval Stn, Fenceline @ Arnold Rd **Latitude: N** 34.11940 **Longitude: W** 119.15984**South:** South side of Pt Mugu Parking lot **Latitude: N** 34.08530 **Longitude: W** 119.06107**Division Description:**

This ~ 6.6 mile long division begins at the fence line at Arnold Rd. at the NW boundary of the Naval Station Ventura County and extends SE along the Naval Base, Laguna Point, Mugu Lagoon, and southern sandspit to the south side of the parking lot at Pt Mugu Rock. This Division is only accessible with permission from the Naval Base. Responders should be accompanied by authorized naval personnel unless otherwise advised. Fine to medium grained sand beaches cover 100% of this Division, all of which are accessible for vehicular traffic. Beaches north of the Mugu Lagoon entrance (Calleguas Creek Discharge) must be accessed from the north. The southern sand spit must be accessed from the south near the gunnery range. Mugu Lagoon, sand spits, and coastal dunes provide critical habitat for a wide variety of sensitive habitats and protected and T/E species and should not be disturbed w/o express permission from authorized biologists from the naval base and/or state and federal agencies.

Cultural, Historical, and Archeological Concerns:

Cultural, Historical, and Archeological sites may exist, however, the exact locations of these sites must be ascertained by contacting the Native American Heritage Commission at (916) 653-4082.

Ventura County - Division I

Division Boundaries**County** Ventura**North** South side of Pt Mugu Parking lot **Latitude: N** 34.08530 **Longitude: W** 119.06107**South** Ventura/Los Angeles County Line **Latitude: N** 34.04510 **Longitude: W** 118.94482

Division Description:

This ~ 7.5 mile long division begins at the south side of the parking lot at Pt Mugu Rock and extends SE to the Ventura/Los Angeles Co Line. This Division parallels Hwy 1 and the shoreline is primarily boulder rip-rap, cobble or small temporary pocket beaches exposed only at lower tides. Response within most of this division would entail roadside parking. There are larger fine to medium grained sand beaches at three locations w/in the division at Pt. Mugu State Park -1.2 miles; Big Sycamore Canyon - 0.3 mi.; and Leo Carrillo State Beach - 0.25 mi., north of the Ventura/LA County Line.

Cultural, Historical, and Archeological Concerns:

Cultural, Historical, and Archeological sites may exist, however, the exact locations of these sites must be ascertained by contacting the Native American Heritage Commission at (916) 653-4082.
